What we've been doing

23 August 2022

Tarmans Copse

The tasks were to dig 2 ponds, and to construct dams with branches and wet clay. The aim was to try to make Tarmans Copse a valley bog.

We had a good turnout of 20 volunteers. The weather was cloudy and muggy

Later, volunteers revisited the ponds after rain, and found water in both ponds.

30 August 2022

Englemere Pond

The task was scrub clearance either side of the viewing platform and into the area where the pond was. All brash was placed in the old dead hedge. Birch, pine and willow were removed from around the platform.

17 volunteers attended. The weather was cloudy with a light breeze.
